ho

Pages: Reflections, Exercises, About me, Contact, Art, Game, Home

Top layer has transparency and is solid black. shapes are negative space.

There is another image underneath that moves based on user interaction.

Each shape is a button that is invisible, when user hovers over button, text or image appears indicating what the button does.

motion: the background image moves with page scroller or based on mouse position. Mouse position better because interaction is unprompted and automatic.

Background box either moves vertically or 2 dimensionally.
